Subject Index

Academic courses in patenting	18(4), 219
Bagis, electronic system for IP rights in Switzerland	18(3), 133
British Library, experiences with CD–ROM products	18(1), 15
CD–ESPACE Mexico	18(1), 11
CD–ROM, applications within USPTO	18(2), 65
CD–ROM, best medium for dissemination?	18(1), 3
CD–ROM, EPO review of Jukeboxes	18(2), 69
CD–ROM, EPO's use in disseminating patent information	18(1), 3
CD–ROM, experience of Mexican Office	18(1), 9
CD–ROM, experiences of Japanese Patent Office	18(2), 57
CD–ROM, future in dissemination	18(1), 6
CD–ROM, impact on use of online	18(2), 90
CD–ROM, intellectual property laws (IPLEX)	18(3), 119
CD–ROM, problems with using	18(1), 17
CD–ROM, usage in British Library	18(1), 16
China, establishing PCT search files	18(2), 83
China, statistics and analysis of PCT search reports	18(4), 215
China, patent documentation and information services	18(1), 19
Classification problems with pharmaceutical claims	18(4), 227
Community designs legislation	18(4), 195
Competition in patent retrieval software	18(4), 211
Compu-Mark trademark databases on Questel•Orbit	18(4), 205
Designs as searchable intellectual property	18(4), 193
Dissemination, role of various organisations in Japan	18(2), 55
Dissemination, policy of USPTO	18(2), 61
Doctool, addition of terms and codes to aid retrieval at EPO	18(3), 153
ECLA, EPO's internal classification	18(3), 149
Electronic system, administering IP rights in Switzerland	18(3), 133
EPO, experiences with CD–ROM	18(1), 3

EPO, Epoque system for search and retrieval 18(3), 141
EPO, classification tools 18(3), 149
EPO, role in developing SGML 18(4), 184
EPO, survey of DG1 search quality 18(3), 155
EPOQUE, electronic search and retrieval system in EPO 18(3), 141
Free access to official patent information 18(4), 211
Generic claims in pharmaceutical patent documents 18(4), 227
Hague Agreement for designs 18(4), 195
Hearing 95, strategies of EPO 18(2), 97
HTML for authoring patent documents 18(4), 189
Information sources for designs 18(4), 199
INPI, pharmaceutical database (IPLEX) 18(3), 125
Internet, patent information available 18(1), 34
Internet, review of home pages of IP offices 18(3), 173
Internet, usefulness for intellectual property experts 18(1), 33
IPLEX, intellectual property laws on CD–ROM 18(3), 119
Japanese experience problems with some pharmaceutical claims 18(4), 227
Japan Farmdoc Association 18(4), 227
JPO, experiences with CD–ROM 18(2), 55
Jukeboxes, EPO review of 18(2), 69
Mark-up, use in Epoque to aid retrieval 18(3), 147
Markush structures, legal problems caused 18(1), 23
Markush structures, pharmaceutical patent database (IPLEX) 18(3), 125
Mexico, experiences with CD–ROM dissemination 18(1), 9
Mimosa, stifling competition? 18(4), 212
Novelty, problems caused by Markush structures 18(1), 29
Online services, impact of CD–ROM on usage 18(2), 90
Patent courses for engineers 18(4), 219
Patent information, survey of impact of means if dissemination 18(2), 87
Patenting, EPO study on needs of users 18(2), 99
Patent Library involvement in academic courses 18(4), 221
Patent processing using SGML 18(4), 183
Patents, EPO study on effect of costs of patenting 18(2), 99

Patents, intensifying general awareness	18(2), 102
PCT search files, establishing search files in China	18(2), 83
PCT search reports, analysis and statistics from CPO	18(4), 215
Pharmaceutical patents — problems with uninformative claims	18(4), 227
Pharmsearch, pharmaceutical patent database	18(3), 125
Questel•Orbit's Imagination software	18(4), 209
Questel•Orbit trademark databases	18(4), 205
Retrieval, classification tools used in EPO	18(3), 149
Searching designs	18(4), 194
Search quality, survey of DG1 at EPO	18(3), 155
SGML, hierarchy in patent documents	18(4), 185
SGML for patent documents	18(4), 183
Switzerland, electronic administration of IP rights	18(3), 133
Trademark searching on Questel•Orbit	18(4), 206
UK designs legislation	18(4), 197
UKPO involvement in academic courses	18(4), 220
UK trademark database on Questel•Orbit	18(4), 205
University patent training for engineers	18(4), 219
USA designs legislation	18(4), 198
